Thermochimica Acta 253 (1995) 337–343

thermochimica acta

Subject index

Acetamide
The enthalpic interaction parameters of acetamide with sodium halides in water at 298.15 K 85
Acetonitrile
Isotope effects on thermodynamic properties: mixtures of $x(D_2O$ or $H_2O) + (1-x)$ CH_3CN at 298.15 K 127
Adiabatic
An automatic adiabatic calorimeter for heat capacity measurements of solids in the range 4.2–30 K 189
Adiabatic detonation calorimeter
Construction of an adiabatic detonation calorimeter and determination of the heat of detonation for 1,5-diazido-3-nitrozapentane (DIANP) 195
Adsorption
A study on the surface adsorption of silver powders: The effect of technological conditions on the characterization parameters of the powder surface 285
Calorimetric study of water two-dimensionally condensed on the homogeneous surface of a solid 221
AE
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 317
Aerobic growth mechanism
Microcalorimetric study on the aerobic growth of *Escherichia coli* 175
Alginic acid
Non-freezing water content of mono- and divalent cation salts of polyelectrolyte–water systems studied by DSC 137
Alkali metal perchlorate
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 317
Alkanol
Excess molar enthalpies of n-alkanol + n-hexane mixtures under high pressure 51
Excess molar enthalpies of n-alkanols or isomeric alkanols + N,N-dimethylethanolamine at 298.15 K 69
Alkylation
Thermal stability of alkylated and hydroxyalkylated lysozymes 117
Alloy
Study of the kinetics of the nitridation reaction on Al–(Mg,Si) alloys by TG 265
Alumina
Investigation of the thermodynamic properties of γ-Al_2O_3 33
Aluminium
Study of the kinetics of the nitridation reaction on Al–(Mg,Si) alloys by TG 265
Anchoring
Thermoanalytical study on anchoring effects of long-chain diynoic acids in thermal polymerization 103
ATP
Microcalorimetric study on the interaction of F-actin with myosin and its proteolytic fragments 167
Azeotrope
Study and applications of binary and ternary azeotropes 295

Binary system
Excess enthalpies of diethylether, ethylpropylether, dipropylether + methyl methylthiomethyl sulfoxide or + dimethyl sulfoxide at 298.15 K 59
Excess molar enthalpies of n-alkanol + n-hexane mixtures under high pressure 51
Isotope effects on thermodynamic properties: mixtures of $x(D_2O$ or $H_2O) + (1-x)$ CH_3CN at 298.15 K 127

Phase diagram and compatibility of the binary systems TNT–polyester and TNT–picric acid 111
Study and applications of binary and ternary azeotropes 295
Calorimeter
An automatic adiabatic calorimeter for heat capacity measurements of solids in the range 4.2–30 K 189
Calorimetry
Application of a reduced-extent method to thermokinetic studies of enzyme-catalyzed reactions 275
Thermodynamic characterization of vapor-deposited amorphous solid 201
Carboxymethylcellulose
Non-freezing water content of mono- and divalent cation salts of polyelectrolyte–water systems studied by DSC 137
Catalyst
H_2O_2 catalytic cure of urea formaldehyde resins with different structures 307
Cation
Complexation thermodynamics of crown ethers. Part 4. Ring-enlargement effects upon cation complexation with dibenzo-18 to dibenzo-22-crown-6 93
Compatibility
Phase diagram and compatibility of the binary systems TNT–polyester and TNT–picric acid 111
Compatibility test
The application of microcalorimetry in the compatibility test for pyrotechnics 213
Complexation
Complexation thermodynamics of crown ethers. Part 4. Ring-enlargement effects upon cation complexation with dibenzo-18 to dibenzo-22-crown-6 93
Conduction calorimetry
Application of a reduced-extent method to thermokinetic studies of enzyme-catalyzed reactions 275
Cotton cellulose ammonium phosphate
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 243
Coupled technique
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 317
Crown ether
Complexation thermodynamics of crown ethers. Part 4. Ring-enlargement effects upon cation complexation with dibenzo-18 to dibenzo-22-crown-6 93
Cr_5Te_8
Heat capacities of Cr_5Te_8 and Ni_5Te_8 from 325 to 930 K 11
Curing
H_2O_2 catalytic cure of urea formaldehyde resins with different structures 307

Deconvolution
Linearity and non-linearity in DSC: A critique on modulated DSC 183
Degradation
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 243
Denaturation
Thermal stability of alkylated and hydroxyalkylated lysozymes 117
Desorption kinetics
A study on the surface adsorption of silver powders: The effect of technological conditions on the characterization parameters of the powder surface 285
Deuterium oxide
Isotope effects on thermodynamic properties: mixtures of $x(D_2O$ or $H_2O) + (1-x)$ CH_3CN at 298.15 K 127
Dialkylether
Excess enthalpies of diethylether, ethylpropylether, dipropylether + methyl methylthiomethyl sulfoxide or + dimethyl sulfoxide at 298.15 K 59
Diazidonitrozapentane
Construction of an adiabatic detonation calorimeter and determination of the heat of detonation for 1,5-diazido-3-nitrozapentane (DIANP) 195
Dimethylethanolamine
Excess molar enthalpies of *n*-alkanols or isomeric alkanols + *N*,*N*-dimethylethanolamine at 298.15 K 69
Direct calorimetry
Calorimetric study of water two-dimensionally condensed on the homogeneous surface of a solid 221
Diynoic acid
Thermoanalytical study on anchoring effects of long-chain diynoic acids in thermal polymerization 103
DMSO
Excess enthalpies of diethylether, ethylpropylether, dipropylether + methyl methylthiomethyl sulfoxide or + dimethyl sulfoxide at 298.15 K 59

Doping
High temperature heat capacities of $(U_{0.91}M_{0.09})O_2$ (where M is Pr, Ce, Zr) from 290 to 1410 K 1
DSC
Linearity and non-linearity in DSC: A critique on modulated DSC 183
Non-freezing water content of mono- and divalent cation salts of polyelectrolyte–water systems studied by DSC 137
Simultaneous X-ray diffraction and differential scanning calorimetry in the study of phase transitions 149
Thermal stability of alkylated and hydroxyalkylated lysozymes 117
Thermoanalytical study on anchoring effects of long-chain diynoic acids in thermal polymerization 103
DTA
Investigation of the thermodynamic properties of γ-Al_2O_3 33
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 243
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 317
Dynamic DSC
Linearity and non-linearity in DSC: A critique on modulated DSC 183

Enthalpy relaxation
Thermodynamic characterization of vapor-deposited amorphous solid 201
Escherichia
Microcalorimetric study on the aerobic growth of *Escherichia coli* 175
Ethanol
Behavior of solutes in water + ethanol mixed solvent. Part 1. Partial molar volumes, enthalpies of solution and chemical shift of ^1H NMR for sucrose, urea and 1-phenyl-2-thiourea solutes 41
Ether
Complexation thermodynamics of crown ethers. Part 4. Ring-enlargement effects upon cation complexation with dibenzo-18 to dibenzo-22-crown-6 93
Excess enthalpy
Excess enthalpies of diethylether, ethylpropylether, dipropylether + methyl methylthiomethyl sulfoxide or + dimethyl sulfoxide at 298.15 K 59
Excess heat capacity
Heat capacities of Cr_5Te_8 and Ni_5Te_8 from 325 to 930 K 11
Excess molar enthalpy
Excess molar enthalpies of *n*-alkanol + *n*-hexane mixtures under high pressure 51
Excess molar enthalpies of *n*-alkanols or isomeric alkanols + *N*,*N*-dimethylethanolamine at 298.15 K 69

F-actin
Microcalorimetric study on the interaction of F-actin with myosin and its proteolytic fragments 167
Flame retardant
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 243
Frenkel defects of oxygen
High temperature heat capacities of $(U_{0.91}M_{0.09})O_2$ (where M is Pr, Ce, Zr) from 290 to 1410 K 1

Goldschmidt tolerance factor
Thermodynamic properties of ternary barium oxides 155

Halide
The enthalpic interaction parameters of acetamide with sodium halides in water at 298.15 K 85
Heat capacity
An automatic adiabatic calorimeter for heat capacity measurements of solids in the range 4.2–30 K 189
Heat capacities of Cr_5Te_8 and Ni_5Te_8 from 325 to 930 K 11
Heat capacity measurement on $(Zr_{1-y}M_y)O_x$ (where M is Nb, Sn) from 325 to 905 K 19
High temperature heat capacities of $(U_{0.91}M_{0.09})O_2$ (where M is Pr, Ce, Zr) from 290 to 1410 K 1
Thermodynamic properties of ternary barium oxides 155
Heat capacity anomaly
High temperature heat capacities of $(U_{0.91}M_{0.09})O_2$ (where M is Pr, Ce, Zr) from 290 to 1410 K 1
Heat of detonation
Construction of an adiabatic detonation calorimeter and determination of the heat of detonation for 1,5-diazido-3-nitrozapentane (DIANP) 195

Heat of formation
Formation enthalpies and non-bonding interactions of hexachlorocyclohexanes 235
Heat of mixing
Supercooling and enthalpy of mixing of aqueous solutions of tetrabutylammonium (or isopentylammonium) chloride subjected to different thermal treatments 77
Heat of solution
Behavior of solutes in water + ethanol mixed solvent. Part 1. Partial molar volumes, enthalpies of solution and chemical shift of ^1H NMR for sucrose, urea and 1-phenyl-2-thiourea solutes 41
Heat of vaporization
Study and applications of binary and ternary azeotropes 295
Hexachlorocyclohexane
Formation enthalpies and non-bonding interactions of hexachlorocyclohexanes 235
Hexane
Excess molar enthalpies of *n*-alkanol + *n*-hexane mixtures under high pressure 51
High pressure
Excess molar enthalpies of *n*-alkanol + *n*-hexane mixtures under high pressure 51
High-purity copper
An automatic adiabatic calorimeter for heat capacity measurements of solids in the range 4.2–30 K 189
Homogeneous surface
Calorimetric study of water two-dimensionally condensed on the homogeneous surface of a solid 221
Hydrogen bond
Thermoanalytical study on anchoring effects of long-chain diynoic acids in thermal polymerization 103
Hydrogen peroxide
H_2O_2 catalytic cure of urea formaldehyde resins with different structures 307

Interaction parameter
The enthalpic interaction parameters of acetamide with sodium halides in water at 298.15 K 85
Isopentylammonium chloride
Supercooling and enthalpy of mixing of aqueous solutions of tetrabutylammonium (or isopentylammonium) chloride subjected to different thermal treatments 77
Isotope effect
Isotope effects on thermodynamic properties: mixtures of $x(D_2O$ or $H_2O) + (1-x)$-CH_3CN at 298.15 K 127

Kinetics
Application of a reduced-extent method to thermokinetic studies of enzyme-catalyzed reactions 275
Study of the kinetics of the nitridation reaction on Al–(Mg,Si) alloys by TG 265
Lanthanum chromium oxide
Pyrolytic process of La(III)–Cr(VI) precursor for the perovskite type lanthanum chromium oxide 253
Linearity
Linearity and non-linearity in DSC: A critique on modulated DSC 183
Low temperature
An automatic adiabatic calorimeter for heat capacity measurements of solids in the range 4.2–30 K 189
Lysozyme
Thermal stability of alkylated and hydroxyalkylated lysozymes 117

Magnesium
Study of the kinetics of the nitridation reaction on Al–(Mg,Si) alloys by TG 265
MDSC
Linearity and non-linearity in DSC: A critique on modulated DSC 183
Metabolic thermogram
Microcalorimetric study on the aerobic growth of *Escherichia coli* 175
Metastable
Thermodynamic characterization of vapor-deposited amorphous solid 201
Methane
Solubility of CH_4 in the mixed solvent *t*-butyl alcohol and water 327
Methyl methylthiomethyl sulphoxide
Excess enthalpies of diethylether, ethylpropylether, dipropylether + methyl methylthiomethyl sulfoxide or + dimethyl sulfoxide at 298.15 K 59
Microcalorimeter
The application of microcalorimetry in the compatibility test for pyrotechnics 213
Microcalorimetry
Microcalorimetric study on the aerobic growth of *Escherichia coli* 175
Microcalorimetric study on the interaction of F-actin with myosin and its proteolytic fragments 167

Micro-DSC
Thermoanalytical study on anchoring effects of long-chain diynoic acids in thermal polymerization 103
Mixed oxide
Pyrolytic process of La(III)–Cr(VI) precursor for the perovskite type lanthanum chromium oxide 253
Mixed solvent
Behavior of solutes in water + ethanol mixed solvent. Part 1. Partial molar volumes, enthalpies of solution and chemical shift of ^1H NMR for sucrose, urea and 1-phenyl-2-thiourea solutes 41
MMTSO
Excess enthalpies of diethylether, ethylpropylether, dipropylether + methyl methylthiomethyl sulfoxide or + dimethyl sulfoxide at 298.15 K 59
Model
Pyrolytic process of La(III)–Cr(VI) precursor for the perovskite type lanthanum chromium oxide 253
Monazite
Pyrolytic process of La(III)–Cr(VI) precursor for the perovskite type lanthanum chromium oxide 253
Myosin
Microcalorimetric study on the interaction of F-actin with myosin and its proteolytic fragments 167

Ni_5Te_8
Heat capacities of Cr_5Te_8 and Ni_5Te_8 from 325 to 930 K 11
Non-bonding interaction
Formation enthalpies and non-bonding interactions of hexachlorocyclohexanes 235
Non-freezing water
Non-freezing water content of mono- and divalent cation salts of polyelectrolyte–water systems studied by DSC 137

Order–disorder transition
Heat capacities of Cr_5Te_8 and Ni_5Te_8 from 325 to 930 K 11
Heat capacity measurement on $(Zr_{1-y}M_y)O_x$ (where M is Nb, Sn) from 325 to 905 K 19

Partial molar volume
Behavior of solutes in water + ethanol mixed solvent. Part 1. Partial molar volumes, enthalpies of solution and chemical shift of ^1H NMR for sucrose, urea and 1-phenyl-2-thiourea solutes 41
Perchlorate
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 317
Perovskite
Pyrolytic process of La(III)–Cr(VI) precursor for the perovskite type lanthanum chromium oxide 253
Phase diagram
Phase diagram and compatibility of the binary systems TNT–polyester and TNT–picric acid 111
Supercooling and enthalpy of mixing of aqueous solutions of tetrabutylammonium (or isopentylammonium) chloride subjected to different thermal treatments 77
Phase transition
Simultaneous X-ray diffraction and differential scanning calorimetry in the study of phase transitions 149
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 317
Picric acid
Phase diagram and compatibility of the binary systems TNT–polyester and TNT–picric acid 111
Polyelectrolyte
Non-freezing water content of mono- and divalent cation salts of polyelectrolyte–water systems studied by DSC 137
Polyester
Phase diagram and compatibility of the binary systems TNT–polyester and TNT–picric acid 111
Polymerization
Thermoanalytical study on anchoring effects of long-chain diynoic acids in thermal polymerization 103
Pyrolysis
Pyrolytic process of La(III)–Cr(VI) precursor for the perovskite type lanthanum chromium oxide 253
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 243
Pyrotechnics
The application of microcalorimetry in the compatibility test for pyrotechnics 213

Reduced-extent method
Application of a reduced-extent method to thermokinetic studies of enzyme-catalyzed reactions 275

Resin
H_2O_2 catalytic cure of urea formaldehyde resins with different structures 307

SEM
The application of microcalorimetry in the compatibility test for pyrotechnics 213
Silicon
Study of the kinetics of the nitridation reaction on Al–(Mg,Si) alloys by TG 265
Silver powder
A study on the surface adsorption of silver powders: The effect of technological conditions on the characterization parameters of the powder surface 285
SLE
Supercooling and enthalpy of mixing of aqueous solutions of tetrabutylammonium (or isopentylammonium) chloride subjected to different thermal treatments 77
Solubility
Solubility of CH_4 in the mixed solvent *t*-butyl alcohol and water 327
Stability
Complexation thermodynamics of crown ethers. Part 4. Ring-enlargement effects upon cation complexation with dibenzo-18 to dibenzo-22-crown-6 93
Thermal stability of alkylated and hydroxyalkylated lysozymes 117
Supercooling
Supercooling and enthalpy of mixing of aqueous solutions of tetrabutylammonium (or isopentylammonium) chloride subjected to different thermal treatments 77
Surface
Calorimetric study of water two-dimensionally condensed on the homogeneous surface of a solid 221
Surface fractal
A study on the surface adsorption of silver powders: The effect of technological conditions on the characterization parameters of the powder surface 285
Synchrotron X-ray
Simultaneous X-ray diffraction and differential scanning calorimetry in the study of phase transitions 149

TA
Study on the thermal degradation of cotton cellulose ammonium phosphate and its metal complexes 243
TBA
Solubility of CH_4 in the mixed solvent *t*-butyl alcohol and water 327
Ternary barium oxide
Thermodynamic properties of ternary barium oxides 155
Ternary system
Study and applications of binary and ternary azeotropes 295
Tetrabutylammonium chloride
Supercooling and enthalpy of mixing of aqueous solutions of tetrabutylammonium (or isopentylammonium) chloride subjected to different thermal treatments 77
TG
Investigation of the thermodynamic properties of γ-Al_2O_3 33
Pyrolytic process of La(III)–Cr(VI) precursor for the perovskite type lanthanum chromium oxide 253
Study of the kinetics of the nitridation reaction on Al–(Mg,Si) alloys by TG 265
Thermodynamics
Investigation of the thermodynamic properties of γ-Al_2O_3 33
Isotope effects on thermodynamic properties: mixtures of $x(D_2O$ or $H_2O) + (1-x)$ CH_3CN at 298.15 K 127
Thermodynamic characterization of vapor-deposited amorphous solid 201
Thermodynamic properties of ternary barium oxides 155
Thermokinetics
Application of a reduced-extent method to thermokinetic studies of enzyme-catalyzed reactions 275
TNT
Phase diagram and compatibility of the binary systems TNT–polyester and TNT–picric acid 111

UF resin
H_2O_2 catalytic cure of urea formaldehyde resins with different structures 307

Vapour pressure
Thermodynamic properties of ternary barium oxides 155
VLE
Study and applications of binary and ternary azeotropes 295

Water
Behavior of solutes in water + ethanol mixed solvent. Part 1. Partial molar volumes, enthalpies of solution and chemical shift of ^1H NMR for sucrose, urea and 1-phenyl-2-thiourea solutes 41
Calorimetric study of water two-dimensionally condensed on the homogeneous surface of a solid 221
Non-freezing water content of mono- and divalent cation salts of polyelectrolyte–water systems studied by DSC 137
Solubility of CH_4 in the mixed solvent *t*-butyl alcohol and water 327

XRD
Simultaneous X-ray diffraction and differential scanning calorimetry in the study of phase transitions 149

$(Zr_{1-y}Nb_y)O_x$
Heat capacity measurement on $(Zr_{1-y}M_y)O_x$ (where M is Nb, Sn) from 325 to 905 K 19
Zr–O alloy
Heat capacity measurement on $(Zr_{1-y}M_y)O_x$ (where M is Nb, Sn) from 325 to 905 K 19
$(Zr_{1-y}Sn_y)O_x$
Heat capacity measurement on $(Zr_{1-y}M_y)O_x$ (where M is Nb, Sn) from 325 to 905 K 19
